

WAS FOUND FROZEN OUT IN THE FIELDS.

A Rider Haggard Story Comes from Wyoming.

ED. JOHNSON CRAWLED
FOR THIRTY MILES.

Recollects Being in a Saloon and
Put into a Cab.

The Last He Remembers Was That
He Was in British Columbia, but
He Was Found Cold, Half Dead
and Nearly Starved Near Red
Butte, Wyo.—Belief That He Was
Drugged and Robbed, and Then
Turned Adrift.

Laramie, Wyoming, May 2.—The
Boomerang contains the following
story: One of the most unfortunate
cases which has come to public attention
here in a long time involving
human suffering was heard of Sunday
afternoon when Commissioner P. C.
Hansen received a dispatch from Agent
Tomlinson at Red Butte saying that
a man had been found in the fields
a short distance east of that station,
frozen, denuded by the cold, half
dead and nearly starved.

The man was brought to the city at
5:40 on No. 7, and was immediately
taken to the hospital east of the city,
where he is being given careful attention
by the sisters. He was in such a
dazed condition mentally that he could
give no connected account of himself
or how he came to be out in the elements
in that condition. He was in such a
dazed condition mentally that he could
give no connected account of himself
or how he came to be out in the elements
in that condition.

Out in the Hills Eight Nights.

Dr. Bristol was called to give him
medical attention. The man said that
he had been out in the hills eight
nights, and his condition certainly cor-
roborated his statement. He attracted
attention to himself from the station
by waving his white shirt. He had
taken this off to wave and when
found had on nothing but an under
shirt and pants. Dr. Bristol found that
his feet were almost solidly frozen
and they were lacerated and bleeding.
He had been unable to walk and when
he was crawling, having been guided, he
said, toward the railroad track by the
locomotive whistles. The skin was all
worn off his knees, and the flesh
scraped from the toes and the tops of
his feet where they had been dragged.
The skin was also worn off his arms
from the wrist to the elbows, and it
was expected that in a day or two
he would be restored to his senses
and that he will be able to tell where
his home is and who his friends are.

It is believed that he is the man who
was missed from the eastbound pas-
senger train No. 2 about a week ago
at Granite Canyon. Conductor Mills
reported that a man was missing from
the train at that time. The surmise
is that his mind was affected by
the altitude and that he got off the
train, leaving his clothing except what
was on him when found. Since that
time he has been wandering on the
hills. He was able to say last evening
that he slept in the snow Saturday
night, but that nights previous to that
he had been able to crawl under rocks
and get partial shelter.

His Last Recollection.
Johnson was seen this afternoon by
a Boomerang representative at a
hospital. He was found to be in full
possession of his mental faculties and
perfectly able to recall where his home
was, but for family reasons he refused
to divulge this fact. He was not able,
however, to recall any of the circum-
stances with any certainty as to how
he became a wanderer in the hills or
this section. He said:

"My last recollection is like this. I
think I was in a saloon somewhere
and that I was put into a cab and
driven out of town. It comes to me
that I was taken out of the cab and
carried down a mountain side into a
ravine. My recollection is that there
were three men and it seems they said,
'Well, that will fix him all right,' or
something to that effect. Further
than that I have no recollection. 'This
seems to me to have been in the night.
I do not think I awoke the next day at
all, but the next day, when I came to
I sense of realization, I found myself
bathing my feet in a pool of water
formed by the snow melting. Then I
said I must get out of this and started.
The probability is that I was in my
night I got into the hills. I have
been accustomed to drinking
some and sometimes get on a spree,
although I never had the delirium tre-
mens. I began to crawl on my hands
and knees. I know that I made six
different camps and figure that I was
out eight nights.

What Was the Cause?
"When I could not get under a rock
I would make a hole in the snow at
night, and then I crawled on and on.

NEWS FROM NEAR-BY CITIES AND TOWNS

REPAIRS BEING MADE ON THE
SAPPETE VALLEY RAILROAD.

Bears and Salina Girls—Agricultural
College—Closing of the
Schools of Cache County—Who Is
Arthur Brown?—Dubois Blossoms
Out as a Society Bad—Wyoming
Cattle Outlook.

Logan is bothered with tramps.
The Ephraim Enterprise now ap-
pears an all-home pity paper.
A Heber City man recently paid \$500
for \$7,500 worth of "green goods," and
after he had sent the money he dream-
ed that he had been bilked. His dream
came true.

the usual feminine scream and scam-
per, and Bruin took to the brush.
The Salt Lake Tribune is very anx-
ious for Chairman Richards, of the
Democratic committee to resign. This

Besides including all the bulletins
of the past year, the Experimental
station report, issued last week, con-
tains a large amount of new and in-
teresting matter which is valuable for
all who are engaged in tilling the soil.
The extensive work and research of
the officers City station displayed in
these respects are highly appreciated.
—Logan Journal.

The Sappete Valley road put on a
lot of extra men yesterday to fix up
the track. A number of Ephraim men
have been employed. The superinten-
dent, in a letter to Agent Young, states
that the company will discontinue the
practice of sending workmen to the
city unless the merchants and citizens
make good the promises made to the
company in regard to patronage.—
Ephraim Enterprise.

On the Union Pacific railway, twenty-
eight miles south of Oasie, is the
Bruno Corral station. On each side of
the station house, about one-half mile
distant, are two dens of rattlesnakes.
The irrigation canal is being repaired
and the Beaver river and fairly swarm in
the spring of the year, and in the fall
they are found coming from all direc-
tions to the dens. Within an hour
Charles Ode, section foreman, killed
seventy-five. He uses a "snake" hook,
and although thousands are killed
every season, their numbers do not
appear to diminish.—Millard County
Blade.

We are informed by Superintendent
Oldham that some of the schools of
this county will soon close on account
of lack of funds. Those of Richmond,
Wellsville, Hyde Park, College, Ster-
ling and Clarkston districts will run
on until the close of the school year,
about June 15 or 20. The remaining
schools are either closed or will be
closed within a few weeks. The re-
duction of 20 per cent. in the county
revenues last fall materially affected
the schools and some of the districts
have gotten behind, through failure to
make a small assessment each year
for some years past, for the purpose
of defraying the contingent expenses
of the schools, such as for fuel, etc.—
Logan Journal.

Thatcher Brothers' Banking com-
pany is in receipt of a letter of in-
quiry from Mrs. Ellen Brown, of Mink
Creek, Idaho. The letter says that he
left there of the 3rd of March to go to
Salt Lake City to be absent a week.
Two months have now gone by. The woman
in the letter does not say whether she
is the wife, mother or sister of the
missing man. It was anxious for some
time to trace him, giving no clue by
which he is young or old, light or
dark, large or small, or capable of
identification by any mark or scar.
The letter says that he is Arthur Brown,
of Mink Creek, Idaho. Any informa-
tion relative to the missing man will
be thankfully received at this office or
by Ellen Brown, of Mink Creek, Idaho.
—Logan Journal.

OUR NORTHERN PLANNERS.
Idaho loses another pioneer in the
death of Thomas E. Levan, who died
last Saturday morning near Shoshone,
while returning from California where
he went a few months ago for treat-
ment for paralysis.—Halley Times.

Joseph H. Hutchinson arrived in the
city yesterday from Denver. He is a
son of James Hutchinson, superintendent
of the Trade Dollar mine at Silver
City. For several years he has been
secretary of the Denver mining ex-
change, but now works in Idaho, where
he is one of Colorado's brightest sons,
and will be a distinct acquisition to
this state. What surprises Mr. Hutch-
inson is that he had never learned of the
attractions of Boise or of the re-
sources of the state. Colorado people,
he says, have most indistinct ideas con-
cerning Idaho.—Boise Statesman.

A Washington dispatch to the Chi-
cago Herald says: "Senator Dubois, of
Idaho, who is almost the youngest man
in the Senate and one of the most pop-
ular, has been missing from the cham-
ber for some time. It has been dis-
covered today that he is to make his
debut on the stage at a fashionable
charitable entertainment, of which Mrs.
Carlisle and other cabinet ladies are the
patronesses, and that he is daily re-
hearsing his part by learning to dance
the minuet. His dancing partner at the
coming performance will be one of last
winter's society debutantes, and the
friends of Mr. Dubois fear that if his
Idaho constituents hear of his coming
plunge his present term in the Senate
will be his last."

Mr. Tolcher leaves for Boise city
shortly to attend a meeting of the state

wagon road commission, on May 20.
Among other business the commission
will advertise anew for bids for build-
ing the Elk city branch, and also for the
extension of the Salmon river division
as far as the appropriation will go. The
commission will hereafter meet every
two months for the purpose of accept-
ing the roads as built, etc., so that bids
for the Elk city branch will be opened
on July 1, which will give ample time
to finish the road this season. We hear
that several local parties intend putting
in bids to complete the entire Elk city
road for the lump sum of \$8,000. All of
which is good news, if true.—Grange-
ville Free Press.

OUR EASTERN NEIGHBORS.
Green River has a millinery epidemic.
Laramie has small-pox. Choose!

Green River's new paper, the Star,
has reached Salt Lake. It is one of the
liveliest journals in the state of Wy-
oming, and will do much, judging from
the issue at hand, to make known to
the world the resources of its birth-
place.

A big sale of Rock Springs coal land
aggregating 1,000 acres, and owned by
Evanston capitalists, has been made by
C. D. Clark to the Union Pacific.
Messrs. N. Beaman, J. E. Coshin, John
Stone, A. V. Quinn and others were
interested, and Mr. Clark makes a clean
\$5,000 out of his interest and in negoti-
ating the sale.—News-Register.

A statement is published in both of
the Laramie papers to the effect that
there will be a reduction of hours at
the shops of the Union Pacific soon.
A reporter for the Cheyenne Sun talked
with the local official about the reduc-
tion, and it would be neither affirmed
nor denied by them. Some of the men
stated that they had been looking for
it, but had no intimation that it was
the official word.

Mrs. Cora G. Carlton, of Evanston,
has, through the News-Register, put
forward the name of Mrs. Theresa A.
Jenkins for state superintendent of
schools. She asks that the Republican
party place her in nomination, and if
they do the Democrats and Populists
will have to follow suit with one of the
gentler sex on their ticket.

There is a woman in a woman to allow
a man to defeat her at the polls.
R. E. Son and S. J. Large, two promi-
nent ranchmen from Henry's Fork
were in Green River Wednesday. They
report a unusually prosperous season,
and loss will be exceedingly small. Farm-
ing in that section has commenced, and
a larger acreage than ever will be sown.
The irrigation canal is being repaired
and put in shape to carry a heavy flow
of water. A large number of fruit
trees were set out, one party alone put-
ting out 1,500. Everything in fact is
reporting a unusually prosperous season,
and loss will be exceedingly small. Farm-
ing in that section has commenced, and
a larger acreage than ever will be sown.
